

**Mini Colloquium, October 5<sup>th</sup>, 2018**  
**Nutritional & Oxidative Stresses in Cancer**

**Boutaina Daher's Thesis committee**  
Conference Room 2<sup>nd</sup> floor CSM, 8 Quai Antoine Ier

**9:30 - 10:05**

*Sophie Vasseur (DR Inserm CRCM, Marseille)*

Influence of the metabolic flexibility on progression and metastatic dissemination of Pancreatic Ductal Adenocarcinoma.

**10:05 - 10:35 + 25 min panel Discussion**

*Boutaina Daher (PhD student CSM, Monaco)*

Role of the Cystine transporter (x-CT) in redox control and tumor growth in Pancreatic Ductal Adenocarcinoma.

**Coffee Break 11:00 - 11:15**

**11:15 - 11:50**

*Milica Vucetic (Post-Doct CSM, Monaco)*

The Central Role of Amino Acids in Cancer Redox Homeostasis: Vulnerability Points of the Cancer Redox Code.

**11:50 - 12:25**

*Fatima Mehta-Grigoriou (DR INSERM Curie Institute, Paris)*

Role of chronic oxidative stress and stromal heterogeneity in cancer.
