

FONDATION PRINCE ALBERT II DE MONACO  
CENTRE SCIENTIFIQUE DE MONACO  
INSTITUT PASTEUR

## Environmental Changes & Human Health 2012

### AGENDA

## Vendredi 23 mars 2012

**09:00 - 09:30**

**Opening**

Pr Alice Dautry and H.E. Mr Michel Roger, Ministry of State

**09:30 - 12:30**

**Environmental changes and their health consequences**

Can we develop an integrated vision on health and environmental issues for the future development of our societies?

Chairpersons: Pr Arnaud Fontanet (Institut Pasteur) - Pr Patrick Rampal (Monaco Scientific Center)

Speakers:

- Pr James Webb, historian, Colby College: an historical perspective on environmental changes and vector-borne diseases.
- Pr David Rogers, ecologist, Oxford University, Chair of EDEN (European project on vector-borne diseases): Modelling emergence of vector borne diseases in Southern Europe.
- Pr Mercedes Pascual, ecologist, University of Michigan: climate-driven infectious diseases in a changing human landscape: two case studies on cholera and malaria
- Pr Anthony McMichael, epidemiologist, Australian National University, Canberra: environmental changes and zoonoses emergence.
- Dr Lluís Quintana Murci, geneticist, Institut Pasteur: human migration and infectious diseases.

Conclusion: Prof. Arnaud Fontanet, Prof. Patrick Rampal

**14:30 - 16:30**

**Environmental changes and their health consequences**

Chairpersons: Pr Pierre Dellamonica (Infectiologist, Nice University Hospital) Dr Sandrine Segovia-Kueny (French Environmental Health Association, ASEF)

Speakers:

- Dr Pascal DELAUNAY (Entomologist, Nice University Hospital): vector-borne diseases and international transport
- Dr Alexis Armengaud (Epidemiologist, CIRE-Sud): Chikungunya and dengue emergence in southern France.
- Dr Diarmid Campbell-Lendrum (Department of Public Health and Environment, World Health Organisation): What do we need to do to protect health from climate change?

**16:30 - 17:00**

**Environmental changes and their health consequences**

Chairpersons: Pr Denis ALLEMAND (Monaco Scientific Center) H.E. Mr Bernard Fautrier (Prince Albert II of Monaco Foundation) Dr Ibrahim Assane Mayaki (Executive Secretary of the NEPAD Agency, Veolia Environment Foundation Board Member): Climate change consequences on water born diseases: the example of a water integrated approach to fight against cholera.

**17:00**

**Environmental changes and their health consequences**

Chairpersons: Pr Patrick Rampal (Monaco Scientific Center) - Dr Cécile Delval (Institut Pasteur) Prince Albert II / Institut Pasteur awards ceremony with H.S.H. Prince Albert II of Monaco and Prof. Alice Dautry

**18:00**

**Cocktail**
